EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with William Pieprz on January 11, 2005.

The application has been amended as follows:

Claim 1 (currently amended). A modem apparatus comprising:

- a sampling section that samples a reception signal;
- a multiplier that calculates a product of the present sampling data by the sampling data one data unit ahead;
- an adder that adds up product values calculated for every sampling by adding product values calculated from previous samples occurring one data unit in advance; and
- a detector that detects a reference timing with regard to a cyclic prefix signal using an addition value calculated by said adder.

Claim 4 (currently amended). The modem apparatus according to claim 2, wherein a position nine symbols ahead of the sampling timing corresponding to said minimum value is recognized as a beginning of the cyclic prefix signal.

Art Unit: 2634

Claim 13 (currently amended). The modem apparatus according to claim 12, wherein the judge judges that the starting position of the cyclic prefix signal comes after the ninth symbol of the SEGUE signal from the detection of the minimum value.

EXAMINER'S STATEMENTS OF REASONS FOR ALLOWANCE

2. The following is an examiner's statement of reasons for allowance: Claims 1-17 are allowable over prior art references because related references do not disclose sampling a signal, calculating a product of the present sampling data by the sampling data one data unit ahead, adding the product values of the sampling data, and detecting the timing of a cyclic prefix signal using the addition values.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

3. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Curtis B. Odom whose telephone number is 571-272-3046. The examiner can normally be reached on Monday- Friday, 8-5.
